LOUGHBOROUGH BRANCH

New committee members needed

After a difficult Covid-afflicted year we are looking forward to what will hopefully be a back-to-normal 2021/22 season, planning for which is well advanced. However, following some committee retirements, we urgently need to strengthen our management committee and wish to recruit new committee members at our AGM. Accordingly we would be very pleased to hear from qualified supporters who would be willing and able to contribute a few hours of their time each year. To join the committee the only requirements are to be interested in aerospace matters and to be either (1) a *RAeS Member* of any grade with a specific interest in the branch's activities or (2) a non-society member who pays a subscription to be a *Loughborough Branch Member*. If you are ready to volunteer please email loughborough@aerosociety.com explaining your connection with the branch and your interest in aerospace/aviation and an officer will then contact you to answer any questions you may have.

The activities of the branch are of course fully described in our website www.loughborough-raes.org.uk but, in essence, our requirement on this occasion is to recruit more committee members to act as speaker hosts during and immediately after our evening lectures. Typically this commitment would relate to not more than two lectures per committee member per year. Acting as a host can be an especially rewarding activity as it provides a chance to meet and chat with an informed person or persons from the aerospace community.

If you would like more information please feel free to discuss any queries with any current committee member or ask us via loughborough@aerosociety.com or the *contacts page* of our website.
