

**ROYAL  
AERONAUTICAL  
SOCIETY**  
LOUGHBOROUGH BRANCH

### **Branch Visit on Wednesday 15 April at 1000**

We are pleased to offer a branch visit to the newly opened **Hucknall Flight Test Museum**. This will provide a fascinating insight to part of our local aviation history. Visitors can see exhibits relating to both the flight testing that took place at the largely secret Rolls-Royce Hucknall Flight Test Establishment from 1934 to 1971, and the equally important specialist ground testing that continued at Hucknall right up until the early 2000's. Full details can be viewed at <https://huftm.com>.

At present, visits to the museum are only for organised groups. Please email [loughborough@aerosociety.com](mailto:loughborough@aerosociety.com) if you would like to attend.

The museum does not formally charge for entrance to the museum and operates on a donations only basis. Donations from visitors are therefore vital to keep the project financially viable. We respectfully suggest a guide donation of £10.00 per visitor is a fair reflection of current aviation museum admission charges in the UK. You will need to arrange your own transport to and from Hucknall.

*Dan Nutt, Branch Visits Secretary*
